"THE FIRST IN COOBER PEDY"

"TOM'S TOUR"

8.30 a.m.

10.00 a.m.

1.30 p.m.

Tom and Pat Campagna, proprietors of "Coober Pedy Tours", welcome you to Coober Pedy with its colourful Opal Fields.

Fossicking for your own Opal!

Coober Pedy is prominent on the world tourism map, thanks largely to the out-of-the-ordinary service efforts of Tom and Pat. They do not present "stories and legends" only, but demonstrate real mining conditions in their unique "The Prospectors Working Mine". This is perhaps the only working mine open to tourists. It shows clearly opal bearing levels, seams, faults and opalised shells.

Complete your tour at Coober Pedy Tours opal shop, where there is a comprehensive opal cutting demonstration.

Also view the opalised dinosaur rib bone which is on display.

Visit the most colourful opal fields in the world at
